

Certification & Compliance Checklist

DOC NO.
VERSION Rev. 1.0
DATE 2025

■ This checklist covers all major certifications and compliance requirements for EV charging products across key global markets. Use this as a reference when specifying your OEM order or evaluating a supplier's compliance readiness. Tick the applicable items for your target market.

Certification	Standard / Body	Scope & Key Requirements	Applicable Product	Status / Cert. No.
■ CE Mark (LVD)	2014/35/EU IEC 61851	Low Voltage Directive – electrical safety for chargers up to 1000V AC. Mandatory for all electrical equipment sold in EU/EEA.	Portable EVSE Wallbox Cables	■ Certified ■ In Process Cert No: _____
■ CE Mark (EMC)	2014/30/EU EN 55032	Electromagnetic Compatibility – limits for emissions and immunity. Required alongside LVD for complete CE marking.	All EV chargers with electronics	■ Certified ■ In Process Cert No: _____
■ CE Mark (RED)	2014/53/EU	Radio Equipment Directive – applies if product contains wireless modules (Wi-Fi, Bluetooth, RFID).	Smart / Connected EVSE only	■ N/A ■ Certified Cert No: _____
■ RoHS (EU)	2011/65/EU EN IEC 63000	Restriction of Hazardous Substances – limits for Pb, Hg, Cd, Cr6+, PBB, PBDE, DEHP, BBP, DBP, DIBP in electrical equipment.	All products sold in EU	■ Compliant ■ Pending Decl. Available: ■
■ REACH (EU)	EC 1907/2006 SVHC list	Registration, Evaluation, Authorisation of Chemicals – supplier must provide REACH declaration for materials.	All products (material level)	■ Compliant ■ Pending Decl. Available: ■
■ ErP / EcoDesign	2009/125/EC	Energy-related Products – standby power consumption limits apply to EVSE with power supply.	EVSE with standby mode	■ N/A ■ Compliant Decl. Available: ■
■ IEC 62196 Type 2	IEC 62196-2 EN 62196	Interface standard for Type 2 (Mennekes) connector – mandatory connector standard for Mode 3 charging in EU.	AC charging cables / EVSE	■ Compliant ■ Pending Cert No: _____
■ UL Listing UL 2594	UL 2594 UL/ANSI	Standard for Electric Vehicle Supply Equipment – safety for Level 1 & Level 2 AC EVSE. Required for US market access.	Portable EVSE Wallbox	■ Listed ■ In Process File No: _____
■ UL 62 Cable Safety	UL 62 UL 817	Standard for flexible cords and cables including EV charging cables.	Charging cables Cordsets	■ Listed ■ In Process Cert No: _____

■ FCC Part 15	47 CFR Part 15 FCC	Federal Communications Commission – applies to any device with radio/wireless functionality or unintentional radiators.	Smart EVSE with wireless	■ N/A ■ Certified FCC ID: _____
■ Energy Star (Optional)	US EPA Energy Star	Optional but recommended – energy efficiency certification that improves market acceptance for smart EVSE.	Smart / Wi-Fi EVSE	■ N/A ■ Certified Cert No: _____
■ SAE J1772 (Type 1)	SAE J1772 SAE Int'l	Standard for Type 1 (J-plug) connector used in North America for Level 1 & Level 2 AC charging.	AC cables Type 1 EVSE	■ Compliant ■ Pending Test Report: ■
■ NACS (SAE J3400)	SAE J3400 Tesla/SAE	North American Charging Standard – increasingly adopted across US manufacturers. Combines AC & DC.	Cables Adapters	■ Compliant ■ In Dev. Cert No: _____
■ CSA (Canada)	CSA C22.2 No. 280	Canadian Standards Association – required for Canadian market. Similar scope to UL 2594.	All EVSE for Canada market	■ Certified ■ In Process Cert No: _____

■ RCM Mark	AS/NZS 3112 ACMA / ESA	Regulatory Compliance Mark – combines electrical safety (C-Tick) and EMC (A-Tick) for AU/NZ. Mandatory.	All electrical products	■ Certified ■ In Process Cert No: _____
■ AS/NZS 61851	AS/NZS 61851-1	Australian adoption of IEC 61851 – EV conductive charging system standard. Required for EVSE.	EVSE / Wallbox	■ Compliant ■ Pending Test Report: ■

■ TÜV Approval (Cable)	VDE / TÜV EN 50620	Approvals for EV charging cables including EV cable cores, insulation, and jacket. European cable standard.	EV charging cables	■ Approved ■ In Process Approval No: _____
■ H07RN-F / H07BQ	IEC 60245-4 HARMONISED	Harmonised flexible rubber cable standard – commonly specified for EV charging cable outer jacket / assembly.	Cable assemblies	■ Compliant ■ Pending Test Report: ■
■ SAE J2464 (Cable safety)	SAE J2464	Safety standard for electric and hybrid battery system testing – relevant for cable component qualification.	Cable / connector components	■ N/A ■ Compliant Test Report: ■
■ IEC 60529 (IP Rating)	IEC 60529 EN 60529	Degrees of protection by enclosures – IP Code. Certifies dust/water protection of housing and connectors.	All weatherproof EVSE / cables	■ IP44 ■ IP55 ■ IP65 ■ IP67 Test Report: ■
■ IEC 61000 (EMC)	IEC 61000 series CISPR 32	Electromagnetic compatibility standards – emissions and immunity. Foundation of CE EMC and other market tests.	All EV chargers with electronics	■ Tested ■ In Process Test Report: ■

■ ISO 9001:2015	<i>ISO 9001 Bureau Veritas SGS / TÜV</i>	Quality Management System standard. Demonstrates consistent process control and customer-focus. Widely required by OEM buyers.	<i>Factory level (all products)</i>	■ Certified ■ Applying Expiry: _____
■ IATF 16949	<i>IATF 16949 (Automotive)</i>	Automotive QMS standard – required by automotive OEM customers integrating EV charging into vehicles.	<i>Automotive supply chain</i>	■ N/A ■ Certified Expiry: _____
■ ISO 14001	<i>ISO 14001 Environmental</i>	Environmental Management System – demonstrates commitment to reducing environmental impact in manufacturing.	<i>Factory level</i>	■ Certified ■ Applying Expiry: _____

■ EU Declaration of Conformity	<i>EU DoC All CE dir.</i>	Written declaration that product meets all applicable EU requirements. Must accompany CE-marked products.	<i>All CE products</i>	■ Available ■ Pending Date: _____
■ WEEE Marking	<i>Directive 2012/19/EU</i>	Waste Electrical & Electronic Equipment – crossed-out wheelie bin symbol required on EV chargers sold in EU.	<i>All EV chargers for EU</i>	■ Applied ■ Pending
■ Market Label Compliance	<i>IEC / Regional requirements</i>	Label must include: rated voltage, current, power, frequency, IP rating, manufacturer info, CE/UL mark, serial no.	<i>All products</i>	■ Compliant ■ Pending Label Rev: _____
■ User Manual	<i>Market-specific language reqs.</i>	User manual in required languages for target market (DE, FR, IT, ES, NL for EU; EN for US/AU).	<i>All products</i>	■ Available ■ Pending Languages: _____

■ Compliance Review Summary

Target Market(s)	_____	Review Date	_____
Total Items Checked	___ / ___	Reviewed by	_____
Outstanding Certifications	_____	Est. Completion	_____
Overall Status	☐ Fully Compliant ☐ Partially Compliant ☐ Non-Compliant	Signature	_____
